Accounting in China in Transition, 1949-2000 Allen Huang, Ronald Ma, 2001 The history of the People's Republic of China can be classified into two periods Mao's China and Deng's China Each period contains a number of phases each phase is characterised by political or economic events This book gives an outline of these events and the associated accounting changes

Accounting In China In Transition: 1949-2000 Allen Huang, Ronald Ma, 2001-12-19 The history of the People's Republic of China can be classified into two distinctive periods Mao's China 1949 1978 and Deng's China from 1979 to the present Each period contains a number of sub periods or phases and each phase is characterised by one or more major political or economic events This book gives an outline of the major events and the associated accounting changes over time During the period of Mao's rule China experienced two violent political mass movements which inflicted great suffering on the nation There were few accounting developments in this period In contrast Deng's China set itself the ambitious task of transforming the centrally planned and centrally controlled economy into a market economy with Chinese characteristics There has been an accompanying development in Chinese accounting in which its key role of serving the Government's planning and control needs is transformed into serving the information needs of decision makers in the market place The economic reform in Deng's China has made considerable progress which is particularly evident in the urban and coastal regions The transition from a planned economy to a market economy is incomplete and certain vexatious problems have yet to be resolved The resolution of the state owned enterprise reform issues will set a precedent for the further reform of Chinese accounting

The Big Four and the Development of the Accounting Profession in China Paul Gillis, 2014-02-21 This volume provides a history of the domination of the Big Four in the Chinese accounting industry explaining why China was unable to keep the market for its own accounting firms The book details how easy access to U S capital markets led to major accounting scandals and a clash between U S and Chinese regulators

Corporate Governance and China's H-share Market Alice De Jonge, 2008-01-01 Using detailed case studies of the first nine mainland Chinese companies to be listed on the Hong Kong stock exchange 1993 94 Alice de Jonge examines the evolution of corporate governance law and culture in China's H share market A story emerges not of tensions between ideas of corporate governance from two different legal systems Hong Kong vs mainland Chinese nor about legal convergence as China adopts concepts from Anglo American jurisdictions Rather it is a story of individual firms being pragmatic in mediating the different agendas of state agencies that own or control them Corporate Governance and China's H Share Market looks at corporate governance in a cross border context is unique in providing a detailed understanding of China's H share market reveals why a beer company was the first ever Chinese firm to be listed overseas This fascinating work will appeal to postgraduate students and scholars of corporate governance Asian law and legal systems and Asian business as well as Chinese scholars more generally Professionals such as law practitioners working in Chinese law will also find the book of interest

Transforming Corporate Governance in East

Asia Curtis Milhaupt, Kon-Sik Kim, Hideki Kanda, 2008-06-18 Over the past ten years the corporate governance environment in East Asia has undergone a significant transformation The Asian Financial crisis together with Japan's long economic malaise undermined confidence in the corporate structures governance practices and regulatory oversight of firms in the region Since that time each of the countries

Job Placements And Job Shifts In China: The Effects Of Education, Family Background And Gender Lijuan Wu, 2014-05-27 The book investigates the impact of the market oriented economic reform in China on a unique aspect of the labor market outcomes individuals access to different employment sectors that is the state and collective sector the private sector and the sector of family contract farming in the 1990s Using the longitudinal data of China Health and Nutrition Survey the author finds that the access to different employment sectors is not equally distributed among Chinese workers during the market transition And the hierarchy of employment sectors is reproduced through the procedure that assort individual workers to different employment sectors In addition to achieved characteristics such as human capital ascribed characteristics such as family background and gender are important factors in understanding the procedure of social stratification in the reform era The book will be of value to social scientists interested in the market transition of socialist societies in general and the social transformation of contemporary China in particular

Agricultural Reform and Rural Transformation in China since 1949 Thomas DuBois, Huaiyin Li, 2016-07-11 Since its founding the government of the People s Republic of China has strived to transform rural production the theme of this volume of History of Contemporary China Fourteen articles translated from the Chinese journal Contemporary History Dangdai Zhongguo shi yanjiu offer both empirical account and theoretical analysis of a broad range of historical events and issues such as the guiding policy framework of the three rural issues the causes and consequences of the deep plowing movement and the development of public canteens during the Great Leap Forward child care enterprises and collectives and private lending in the post Mao era and the changing dynamics of interregional flows of goods and people throughout the second half of the 20th century These studies shed light on the historical origins of some of the agricultural and rural problems in China today

China's Economic Rise Congressional Research Service, 2017-09-17 Prior to the initiation of economic reforms and trade liberalization 36 years ago China maintained policies that kept the economy very poor stagnant centrally controlled vastly inefficient and relatively isolated from the global economy Since opening up to foreign trade and investment and implementing free market reforms in 1979 China has been among the world s fastest growing economies with real annual gross domestic product GDP growth averaging nearly 10% through 2016 In recent years China has emerged as a major global economic power It is now the world s largest economy on a purchasing power parity basis manufacturer merchandise trader and holder of foreign exchange reserves The global economic crisis that began in 2008 greatly affected China s economy China s exports imports and foreign direct investment FDI inflows declined GDP growth slowed and millions of Chinese workers reportedly lost their jobs The Chinese government responded by implementing a 586 billion economic stimulus package and loosening monetary policies to increase bank lending Such policies enabled China to effectively weather the effects of the sharp global fall in demand for Chinese products but may have contributed to overcapacity in several industries and increased debt by Chinese firms and local government China s economy

has slowed in recent years Real GDP growth has slowed in each of the past six years dropping from 10.6% in 2010 to 6.7% in 2016 and is projected to slow to 5.7% by 2022 The Chinese government has attempted to steer the economy to a new normal of slower but more stable and sustainable economic growth Yet concerns have deepened in recent years over the health of the Chinese economy On August 11 2015 the Chinese government announced that the daily reference rate of the renminbi RMB would become more market oriented Over the next three days the RMB depreciated against the dollar and led to charges that China's goal was to boost exports to help stimulate the economy which some suspect is in worse shape than indicated by official Chinese economic statistics Concerns over the state of the Chinese economy appear to have often contributed to volatility in global stock indexes in recent years The ability of China to maintain a rapidly growing economy in the long run will likely depend largely on the ability of the Chinese government to implement comprehensive economic reforms that more quickly hasten China's transition to a free market economy rebalance the Chinese economy by making consumer demand rather than exporting and fixed investment the main engine of economic growth boost productivity and innovation address growing income disparities and enhance environmental protection The Chinese government has acknowledged that its current economic growth model needs to be altered and has announced several initiatives to address various economic challenges In November 2013 the Communist Party of China held the Third Plenum of its 18th Party Congress which outlined a number of broad policy reforms to boost competition and economic efficiency For example the communique stated that the market would now play a decisive role in allocating resources in the economy At the same time however the communique emphasized the continued important role of the state sector in China's economy In addition many foreign firms have complained that the business climate in China has worsened in recent years Thus it remains unclear how committed the Chinese government is to implementing new comprehensive economic reforms China's economic rise has significant implications for the United States and hence is of major interest to Congress This report provides background on China's economic rise describes its current economic structure identifies the challenges China faces to maintain economic growth and discusses the challenges opportunities and implications of China's economic rise
