The Report: Indonesia 2015 Oxford Business Group,2015-05-21 With the application of the right policies Indonesia could return to growth above 6% and perhaps eventually reach the 7% target set by the new president The government intends to double expenditure in the key areas of public works transport and agriculture and new plans include the construction of 2600 km of roads 15 airports 24 ports 3258 km of railway and the addition of around 35 000 MW to the state electricity company s current capacity The investments to

be made in infrastructure have the potential to boost the economy in both the short and long term. A shift to more investment and less consumption would help lead to more sustainable growth and insulate the country from external shocks. Already the numbers are starting to head in the right direction.
