Introduction to Financial Accounting Henry Dauderis, David Annand, 2019 This textbook originally by D Annand and H Dauderis was intended for a first course in introductory financial accounting. It focuses on core introductory financial accounting topics that match pre-requisite requirements for students advancing to Intermediate Financial Accounting. A corporate approach is utilized versus beginning with a sole proprietorship emphasis and then converting to a corporate approach. This consistency throughout the book reduces confusion for the introductory student. This most recent revision by D Marchand converted the text from IFRS to reflect the Generally Accepted Accounting Principles of the United States U.S. GAAP.

Urban Stormwater Management in the United States National Research Council, Division on Earth and Life Studies, Water Science and Technology Board, Committee on Reducing Stormwater Discharge Contributions to Water Pollution, 2009-03-17 The rapid conversion of land to urban and suburban areas has profoundly altered how water flows during and following storm events, putting higher volumes of water and more pollutants into the nation's rivers, lakes, and estuaries. These changes have degraded water quality and habitat in virtually every urban stream system. The Clean Water Act regulatory framework for addressing sewage and industrial wastes is not well suited to the more difficult problem of stormwater discharges. This book calls for an entirely new permitting structure that would put authority and accountability for stormwater discharges at the municipal level. A number of additional actions such as conserving natural areas, reducing hard surface cover (e.g., roads and parking lots), and retrofitting urban areas with features that hold and treat stormwater are recommended.

Grave Misfortune: The USS Indianapolis Tragedy Richard A. Hulver, 2019-06-03 Dedicated to the Sailors and Marines who lost their lives on the final voyage of USS Indianapolis and to those who survived the torment at sea following its sinking, plus the crews that risked their lives in rescue ships. The USS Indianapolis (CA-35) was a decorated World War II warship that is primarily remembered for her worst 15 minutes. This ship earned ten battle stars for her service in World War II and was credited for shooting down nine enemy planes. However, this fame was overshadowed by the first 15 minutes of July 30, 1945, when she was struck by two torpedoes from Japanese submarine I-58 and sent to the bottom of the
