used drugs of choice must know adverse effects miscellaneous clinical pearls notorious drug interactions warnings and precautions and of course relevant labs I wanted to cover each disease state in 1 2 pages to try to ensure you are reviewing the most relevant content We did go over 2 pages on some disease states but we did our best to keep the information concise and critical for you to know in your preparation to becoming a Board Certified Pharmacotherapy Specialist The book is over 300 pages but it is in bullet point format and very easy to digest multiple disease states at a sitting There is also some white around the margins to take additional notes or highlight essential information to remember As many of you are aware from the content outline the BCPS exam is not all clinical In addition to the disease states on the BCPS content outline we ve also included sections on biostatistics as well as important regulatory issues I can assure you that there is no doubt this book will help in your preparation to becoming a BCPS pharmacist The Board Certified Pharmacotherapy Specialist BCPS is a designation from the Board of Pharmacy Specialties The contents within this study guide are not affiliated or endorsed by the Board of Pharmacy Specialties
