Disgraceland Jake Brennan, 2019-10-01 From the creator of the popular rock n roll true crime podcast Disgraceland comes an off kilter hysterical at times macabre book inspired by true stories from the highly entertaining underbelly of music history You may know Jerry Lee Lewis married his thirteen year old cousin but did you know he shot his bass player in the chest with a shotgun or that a couple of his wives died under extremely mysterious circumstances Or that Sam Cooke was shot dead in a seedy motel after barging into the manager's office naked to attack her Maybe not Would it change your view of him if you knew that or would your love for his music triumph Real rock stars do truly insane things and invite truly insane things to happen to them murder drug trafficking rape cannibalism and the occult We allow this behavior We are complicit because a rock star behaving badly is what's expected It's baked into the cake Deep down way down past all of our self righteous notions of justice and right and wrong when it comes down to it we want our rock stars to be bad We know the music industry is full of demons ones that drove Elvis Presley Phil Spector Sid Vicious and that consumed the Norwegian Black Metal scene We want to believe in the myths because they're so damn entertaining Disgraceland is a collection of the best of these stories about some of the music world's most beloved stars and their crimes It will mix all new untold stories with expanded stories from the first two seasons of the Disgraceland podcast Using figures we already recognize Disgraceland shines a light into the dark corners of their fame revealing the fine line that separates heroes and villains as well as the danger Americans seek out in their news cycles tabloids reality shows and soap operas At the center of this collection of stories is the ever fascinating music industry a glittery stage populated by gangsters drug dealers pimps groupies with violence scandal and pure unadulterated rock n roll entertainment
