Halbeisen,John Frederick Fuller,1987 It Takes a Family Rick Santorum,2014-04-08 Rick Santorum made his name in the 2012 presidential race with his principled conservatism To understand Santorum s worldview and vision for America there is no better source than his New York Times bestselling book It Takes a Family It Takes a Family is one of the most profound and comprehensive books of political thought ever written by a politician Santorum offers a penetrating look at the social political and economic shifts that have hurt American families and a principled genuinely conservative plan for reversing this slide Here Santorum explains his core beliefs laying out a humane vision that he believes must inform public policy if it is to be effective and just Politicians of both parties he shows fail to address the way Americans truly live their lives in families neighborhoods churches and communities It Takes a Family is animated by an appreciation for the civic bonds that unite a community an appreciation that lies at the heart of genuine conservatism **City Profiles USA** Dawn Bokenkamp Toth,1997-12 The 1999 edition of City Profiles USA provides key contact data for 212 cities in the United States and Canada Included among the cities listed are the largest U S cities other top U S travel destinations the 50 state capitals and new for 1999 major Canadian cities Though designed originally for business travelers this compilation also provides valuable travel information for vacationers researchers and others The types of contact information provided include addresses telephone numbers including toll free numbers where available fax numbers and for some listings e mail and or World Wide Web addresses Listings for each city include hotels restaurants important information resources such as mayor s offices and convention and visitor bureaus colleges and universities hospitals car rental agencies airports and airport transportation and more Of special interest are listings for local attractions and events which also include the month a particular event takes place *Science for All Americans* F. James Rutherford,Andrew Ahlgren,1991-02-14 In order to compete in the modern world any society today must rank education in science mathematics and technology as one of its highest priorities It s a sad but true fact however that most Americans are not scientifically literate International studies of educational performance reveal that U S students consistently rank near the bottom in science and mathematics The latest study of the National Assessment of Educational Progress has found that despite some small gains recently the average performance of seventeen year olds in 1986 remained substantially lower than it had been in 1969 As the world approaches the twenty first century American schools when it comes to the advancement of scientific knowledge seem to be stuck in the Victorian age In *Science for All Americans* F James Rutherford and Andrew Ahlgren brilliantly tackle this devastating problem Based on Project 2061 a scientific literacy initiative sponsored by the American Association for the Advancement of Science this wide ranging important volume explores what constitutes scientific literacy in a modern society the knowledge skills and attitudes all students should acquire from their total school experience from kindergarten through high school and what steps this

country must take to begin reforming its system of education in science mathematics and technology Science for All Americans describes the scientifically literate person as one who knows that science mathematics and technology are interdependent enterprises with strengths and limitations who understands key concepts and principles of science who recognizes both the diversity and unity of the natural world and who uses scientific knowledge and scientific ways of thinking for personal and social purposes Its recommendations for educational reform downplay traditional subject categories and instead highlight the connections between them It also emphasizes ideas and thinking skills over the memorization of specialized vocabulary For instance basic scientific literacy means knowing that the chief function of living cells is assembling protein molecules according to the instructions coded in DNA molecules but does not mean necessarily knowing the terms ribosome or deoxyribonucleic acid Science mathematics and technology will be at the center of the radical changes in the nature of human existence that will occur during the next life span therefore preparing today s children for tomorrow s world must entail a solid education in these areas Science for All Americans will help pave the way for the necessary reforms in America s schools **Mallard Fillmore--** Bruce Tinsley,1995 Mallard Fillmore lampoons everything from political correctness to Phil Oprah and Geraldo to our government s insatiable appetite for spending our money His marvelous supporting cast includes wickedly wonderful caricatures of everyone who s anyone from Hollywood to D C to Arkansas
