Medicare does NOT cover long term care needs in any meaningful fashion All this leads to the fact that a bout with illness can quickly render traditional retirement planning ineffective in addressing the most critical retirement concerns aging Americans harbor however the good news is with proper planning these concerns can be addressed So what is proper planning It is coordinated and comprehensive planning around healthcare housing financial and legal issues It is planning that can help you Avoid institutional care if that is at all possible Locate the most appropriate housing alternative if aging at home is not possible Protect your assets not only from probate costs and estate taxes but from uncovered long term care and medical costs as well and Not become a burden on your loved ones in case of incapacity The AgingOptions Guide is a primer on these issues and how to develop a plan to have a better retirement than might be possible      **Climate Change**
