Papers **Combating Climate Change: A helpful guide on personal carbon footprinting** Gopalakrishnan Ravichandran, Prof. Seeram Ramakrishna, 2021-12-15 Climate change is a hot topic these days as it makes our earth a hotter place to live in. Almost all the countries are working on their climate policy to do their part in reducing carbon emissions. Many global conferences and events have been happened in the past 50 years to control the global temperature rise. But still there is no evidence of significant improvement in reducing our global carbon emissions. Some of you might have thought about your role in combating climate change. To answer this we came up with this book which will help you to understand your carbon footprint and the possible ways to reduce the same. We have covered some of the products, events and activities in this book with which you can find the carbon footprint of the products which aren't covered in this book. Computer-assisted Reporting Bruce Garrison, 2020-07-20 Reporters in the newsroom are becoming more involved in computer assisted reporting and online news research than ever before. This edition introduces readers to computer assisted reporting and to describe how leading journalists are using personal computers for news gathering in modern print, broadcast and online newsrooms. It provides a thorough discussion of technology and its applications to news reporting. Computer Assisted Reporting focuses on the computerization of newsgathering, highlighting the fact that the computer assists journalists by making writing easier and also makes gathering and organizing information more efficient. As it begins, the book demonstrates methods for journalists to get more from their computers such as data retrieval, data analysis, information storage and dissemination of that information in both processed and unprocessed forms. It concludes with a refined proposal originally proposed in the first edition for five stages for development of computer literacy in the newsroom.

Inclusion, Equity, Diversity, and Social Justice in Education Sara Weuffen, Jenene Burke, Margaret Plunkett, Anitra Goriss-Hunter, Susan Emmett, 2023-03-12 This book presents an edited collection of critical discourse situated in the fields of diversity and inclusion broadly and more specifically within the discipline of education. Each chapter articulates the importance of educational diversity in achieving the United Nations Sustainable Development Goal 4. The edited collection presents a grounding narrative of equitable learning opportunities and experiences via interpretivist theoretical frameworks and student centered methodologies. The combination of these approaches combined within the strong and scholarly informed social justice lens reminds us that the onus of education is to acknowledge, recognise, respect and engage with the diverse student cohorts, learning needs and multiple knowledges and cultures that exist in educational contexts. This edited collection creates a holistic discourse around the experiences, interrogations and innovations occurring within education communities to foreground deeper and more holistic understanding of the intersectionality of diversity and inclusion existing within the contemporary educational settings.

The Report: Nigeria 2013 Oxford Business Group, 2013-12-04 As the single most populous nation in Africa, Nigeria

recently overtook South Africa as the largest economy on the continent Natural resources oil and gas in particular comprise the country's single largest revenue earner but the 170m person economy also has seen significant activity in recent years into the industrial financial telecoms and as of 2013 power sectors Hydrocarbons reserves have traditionally attracted the vast majority of domestic and foreign investment in Nigeria Oil production capacity has remained at roughly 2.5m barrels per day bpd since the start of 2000 although output fell to 2.2m bpd on average in 2012 Still the country has long operated below its true potential and government efforts in recent years have sought to increase local value addition by boosting refining capacity and minimising theft and bunkering The country's banking sector has been through a significant shake up as well resulting in a far healthier and more robust financial industry while reforms in the telecoms and agricultural sectors have strengthened medium term prospects
