Slave Species of the Gods Michael

Tellinger,2012-09-10 Our origins as a slave species and the Anunnaki legacy in our DNA Reveals compelling new archaeological and genetic evidence for the engineered origins of the human species first proposed by Zecharia Sitchin in The 12th Planet Shows how the Anunnaki created us using pieces of their own DNA controlling our physical and mental capabilities by inactivating their more advanced DNA Identifies a recently discovered complex of sophisticated ruins in South Africa as the city of the Anunnaki leader Enki Scholars have long believed that the first civilization on Earth emerged in Sumer some 6 000 years ago However as Michael Tellinger reveals the Sumerians and Egyptians inherited their knowledge from an earlier civilization that lived at the southern tip of Africa and began with the arrival of the Anunnaki more than 200 000 years ago Sent to Earth in search of life saving gold these ancient Anunnaki astronauts from the planet Nibiru created the first humans as a slave race to mine gold thus beginning our global traditions of gold obsession slavery and god as dominating master Revealing new archaeological and genetic evidence in support of Zecharia Sitchin s revolutionary work with pre biblical clay tablets Tellinger shows how the Anunnaki created us using pieces of their own DNA controlling our physical and mental capabilities by inactivating their more advanced DNA which explains why less than 3 percent of our DNA is active He identifies a recently discovered complex of sophisticated ruins in South Africa complete with thousands of mines as the city of Anunnaki leader Enki and explains their lost technologies that used the power of sound as a source of energy Matching key mythologies of the world s religions to the Sumerian clay tablet stories on which they are based he details the actual events behind these tales of direct physical interactions with god concluding with the epic flood a perennial theme of ancient myth that wiped out the Anunnaki mining operations Tellinger shows that as humanity awakens to the truth about our origins we can overcome our programmed animalistic and slave like nature tap in to our dormant Anunnaki DNA and realize the longevity and intelligence of our creators as well as learn the difference between the gods of myth and the true loving God of our universe *Legitimacy of Unbelief* Gerd H. Hövelmann,Hans Michels,2017 Dutch journalist Piet Hein Hoebens 1948 1984 held a unique position in the controversies between proponents and skeptics of parapsychology and related fields While he described himself as a card carrying skeptic with strong ecumenical leanings even many of his nominal opponents appreciated his work and his penetrating open minded criticism Hoebens constructive influence on the culture of responsible scientific exchange is felt to this day The editors have collected and mostly translated more than 40 of Hoebens most significant writings about half of which were never published in English before The editors also added editorial introductions to all chapters to elucidate their original contexts and their lasting relevance Therefore the book is more than a commemoration of an important author it provides valuable insights into the history of parapsychology and its skeptical reflections Back cover **Monkey Trials and Gorilla Sermons** Peter J. Bowler,2009-04-20 From the beginning Darwin s dangerous idea has been a snake in the garden denounced from pulpits then and now as incompatible with the central tenets of Christian faith Recovered here is the less well known but equally long history of thoughtful engagement and

compromise on the part of liberal theologians Peter J Bowler doesn't minimize the hostility of many of the faithful toward evolution but he reveals the existence of a long tradition within the churches that sought to reconcile Christian beliefs with evolution by finding reflections of the divine in scientific explanations for the origin of life By tracing the historical forerunners of these rival Christian responses Bowler provides a valuable alternative to accounts that stress only the escalating confrontation Our polarized society Bowler says has all too often projected its rivalries onto the past concealing the efforts by both scientists and theologians to find common ground Our perception of past confrontations has been shaped by an oversimplified model of a war between science and religion By uncovering the complexity of the debates sparked by Darwin's theory we might discover ways to depolarize our own debates about where we came from and why we are here

The Masks of Lucifer David Morris, 1992 This book examines ufology and belief in extra terrestrials as a cultural phenomenon The author examines how 19th century occultism particularly theosophy has been revitalized under the guise of scientific speculation and captured the popular imagination Unexplained or mysterious phenomenon such as UFOs alien visitors crop circles and the evidence for the astronaut gods theory are habitually interpreted by those who claim to have witnessed them in scientific terms a fact that the author believes can be explained partly by tensions and anxieties within society caused by political social and technological change

The Messengers Mike Clelland, 2020-08-19 Without question this is a classic by one of the most exciting new authors in the UFO field today After reading it your view of reality will never be the same The owl has held a place of reverence and mystique throughout history And as strange as this might seem owls are also showing up in conjunction with the UFO experience Mike Clelland has collected a wealth of first hand accounts in which owls manifest in the highly charged moments that surround alien contact There is a strangeness to these accounts that defy simple explanations This book explores implications that go far beyond what more conservative researchers would dare consider But the owl connection encompasses more than the UFO experience It also includes profound synchronicities ancient archetypes dreams shamanistic experiences personal transformation and death From the mythic legends of our ancient past to the first hand accounts of the UFO abductee owls are playing some vital role This is also a deeply personal story It is an odyssey of self discovery as the author grapples with his own owl and UFO encounters What plays out is a story of transformation with the owl at the heart of this journey UFOs, ETs, and Alien Abductions Donderi PhD, Don Crosbie, 2013-06-01 Psychologist and researcher Don Donderi examines the evidence and research from the past several decades on the changing nature of UFOs He looks at why the scientific establishment takes a dim view of UFOs and abduction evidence and examines how the US government has collected and suppressed UFO evidence UFOs ETs and Alien Abductions is a wide ranging examination of all things off planet that falls into 3 sections 1 UFOs evidence and belief between 1947 through 1965 and Cold War mysteries 2 The changing

nature of UFO phenomenon from 1965 to the present which makes the case for the existence of humanoid crew members seen in and around landed UFOs This section also examines six well documented abduction cases and includes the author detailing his own research involvement with the evidence He refutes the belief that all abductees are mentally disturbed and that a psychological disturbance explains the experience 3 The third section is devoted to a very meaty and controversial analysis of science politics and UFOs **Panjab University Research Bulletin** ,1990 Encyclopedia of Occultism & Parapsychology: M-Z J. Gordon Melton,1996 More than 300 new entries cover recent phenomena concepts cults personalities organizations and publications Prominent individuals and personalities in this field are covered and entries on particular countries trace the development of occultism and parapsychology in each Subject Catalog Library of Congress,
