When Justice Is a Game MaDonna Maidment, 2021-01-10T00:00:00Z All too often the police do not get the right person Wrongful convictions are framed as mistakes or failures of the justice system However many of the wrongfully convicted are from among the poor and

visible minority groups The law then becomes an ideological mask relieving us of the responsibility of engaging with the real issues that underscore wrongful convictions MaDonna Maidment illustrates how the desire to get a conviction and paint the police and the courts in a positive light often means that false evidence and court decisions based on prejudice and racism lead to innocent people being convicted The official version of the law says Maidment despite its claims of impartiality neutrality and objectivity is a tool of the state and its elite club members designed to maintain the illegitimate domination of society Turning back to the very system that got it wrong in the first place therefore should be a non starter

Civilian Oversight of Policing Andrew Goldsmith,Colleen Lewis,2000-11-10 How the police are policed is no longer just a domestic issue The involvement of police and other security forces in systematic abuses of human rights in many developing countries as well as in so called developed countries has placed the control of police on a number of international agendas More and more countries are experimenting with different forms of police accountability and many are turning to civilian oversight bodies in an attempt to improve the process This book examines recent experiences with and

prospects for civilian oversight It looks at how this relatively new method of police accountability has been interpreted and implemented in a wide range of jurisdictions around the world While looking at recent experiences in countries which have used the civilian oversight process for some years the United States of America United Kingdom Northern Ireland and Australia it also looks at recent attempts to establish civilian oversight bodies in South Africa Israel Central and South America and Palestine Some chapters explain how in several of these countries oversight of police conduct is a fundamental governance issues and relates to concerns about democratisation and rebuilding civil society Other chapters deal with the complex issue of how to evaluate public complaints mechanisms and the political conditions that enable or frustrate the introduction and maintenance of effective civilian oversight

Police Visibility Bryce Clayton Newell,2021-06-15 Police Visibility presents empirically grounded research into how police officers experience and manage the information politics of surveillance and visibility generated by the introduction of body cameras into their daily routines and the increasingly common experience of being recorded by civilian bystanders Newell elucidates how these activities intersect with privacy free speech and access to information law and argues that rather than being emancipatory systems of police oversight body worn cameras are an evolution in police image work and state surveillance expansion Throughout the book he catalogs how surveillance generates information the control of which creates and facilitates power and potentially fuels state domination The antidote he argues is robust information law and policy that puts the power to monitor and regulate the police squarely in the hands of citizens

Achieving Consistency in Sentencing Lyndon Harris,2022-09-20 The Sentencing Council of England and Wales has as its core aim to promote consistency in sentencing with a developed system of appellate guidance at sentencing in addition to a narrative guidelines system which is now two decades old As such there is much to analyse and many lessons to be learned for England and Wales and other jurisdictions Consistency in sentencing is widely regarded to be an essential component of a fair sentencing system but what does consistency mean exactly In *Achieving Consistency in Sentencing* the author maintains that consistency incorporates both substantive and procedural elements focussing upon the proper application of principle The notion of comparing like cases is rejected as simplistic impractical and unprincipled Lyndon Harris argues that a more principled approach reconciles the tension between consistency and individualised justice which

has been suggested to exist The author uses clear empirical evidence of inconsistency in sentencing to emphasize the crucial need for discretion during the sentencing exercise which he argues should be structured in a way that encourages sentences to be imposed in accordance with the principles underpinning the scheme while maintaining the ability to individualise sentences Using England and Wales as a case study this work analyses various methods of structuring discretion The latter part of the book examines the interplay between the primary givers of guidance Parliament the Court of Appeal Criminal Division and the Sentencing Council and draws conclusions good and bad as to ways in which consistency can be achieved Lyndon Harris identifies lessons to be learned while pointing out the strengths and deficiencies in the various devices used to guide sentencing judges when they are required to exercise their discretion The book draws attention to the need for greater flexibility and structure while emphasising the work that needs to be done to address racial and gender inconsistencies in sentencing Thus while providing a theoretically sound critique of the concept this monograph is of direct practical relevance to those studying or practising in sentencing systems worldwide

Dictionary of Policing Tim Newburn, Peter Neyroud, 2013-06-17 Covers the rapidly developing and increasingly professionalized field of contemporary policing with its new emphasis on skills standards and knowledge

Wright, 2011-11-01 In the 1980s Canada witnessed a public outcry over child sexual abuse cases Elected officials sought a remedy through legal reforms Amendments were made to the Criminal Code of Canada and sexual assault was redefined The word rape was replaced with a continuum of categories intended to reflect the full range of sexually intrusive behaviours Margaret Wright examines how the courts have dealt with child sexual abuse cases since then She demonstrates that although the laws may have changed their interpretation still depends on the social construction of children and on judges own understanding of what constitutes child sexual abuse

Imagining Security Jennifer Wood, Clifford Shearing, 2013-01-11 This book considers how the issue of security is shaped by a range of actors and agencies in the public private and nongovernmental sectors The book has two key themes that governance is now no longer simply shaped by thinking within the state sphere but also within business and community spheres and that these developments have implications for the future of democratic values as assumptions about the traditional role of government are increasingly challenged

Governing the Police David Bayley, Philip Stenning, 2017-07-05 Every modern democracy in our increasingly complex world must confront a fundamental problem how should politicians manage police ensuring that they act in the public interest while avoiding the temptation to utilize them in a partisan manner Drawing on first hand experiences from six democracies the authors describe how frequently disagreements arise between politicians and police commanders what issues are involved and how they are resolved

Governing the Police is organized into three parts the intellectual and governmental context of democratic governance the experience of chief officers in that relationship and the reflections on lessons learned Instead of describing practices within each individual country it compares them across countries developing generalizations about practices explanations for differences and assessments of success in managing the police political relationship Focusing mainly on the daily informal interactions between politicians and police as they balance their respective duties this book compares the experiences and opinions of chief police officers in Australia Britain Canada India New Zealand and the United States By examining the experiences of important officials the authors explain how the balance between accountability and independence can be managed and what challenges leaders face The authors conclude by posing well informed recommendations for improving police governance
