The New York Times Best Illustrated Picture Book now in an oversized trim for added value and fun

The Hueys are small and mischievous unique compared to the world's other creatures but hardly unique to one another

You see each Huey looks the same thinks the same and does the same exact things

So you can imagine the chaos when one of them has the idea of knitting a sweater

It seems like a good idea at the time he is quite proud of it in fact but it does make him different from the others

So the rest of the Hueys in turn decide that they want to be different too

How? By knitting the exact same sweater of course

The first in a series of child friendly concept books by the #1 bestselling artist of The Day the Crayons Quit

How to Catch a Star

Stuck and This Moose Belongs to Me

The New Sweater proves that standing apart can be accomplished even when standing together **Hands Down, Speak Out** Kassia Omohundro Wedekind, Christy Hermann Thompson, 2023-10-10

Math coach Kassia Omohundro Wedekind and literacy coach Christy Hermann Thompson have spent years comparing notes on how to build effective classroom communities across the content areas

How? They wondered can we lay the groundwork for classroom conversations that are less teacher directed and more conducive to student to student dialogue?

Their answers start with Hands Down

Conversations an innovative discourse structure in which students' ideas and voices take the lead while teachers focus on listening and facilitating

In addition to classroom stories and examples Christy and Kassia provide 28 micro lessons designed to help K-5 students develop and exercise their speaking and listening muscles

Inside Hands Down Speak Out you'll learn how to

Build talk communities that are accessible to everyone especially those whose voices are often traditionally left out of classroom discourse

Analyze classroom conversations in order to plan next steps for developing the classroom talk community

Plan and facilitate three types of conversations across literacy and math

Christy and Kassia believe that the development of dialogue skills is worth the investment of time not only because it has the power to deepen our understanding of literacy and mathematics but also to deepen our understanding of ourselves our communities and the world **Talking Their Way Into Science** Karen Gallas, 1995-01-01

Karen Gallas provides us with a window into children's thinking about the world enabling us to see how students build complex theories identify important questions and begin to enter the world of science all within the naturalistic setting of the classroom

As the title suggests this book treats classroom science as a particular type of discourse with its own set of language and thinking practices

Gallas describes the content structure and practice of her child centered approach explains how the teacher's role in Science Talks develops and changes over time and

discusses how the use of Science Talks could transform science instruction as a whole The full transcripts of two such talks included in the appendix in addition to many smaller quoted interchanges throughout the text will fascinate readers
