Michael C. Jensen,William H. Meckling,2013 One of the tactics politicians use in their quest for power is to draw a false distinction between human rights and property rights Property rights are in the last analysis rights of individuals As investors who have a direct stake in the property rights of corporation become less certain that society will honor those rights the capitalized values of corporate securities will erode ultimately to the point that many corporations will be able to remain in business only so long as they can finance their operations from internally generated cash flow or public subsidy

Corporate Growth and Diversification Charles Horace Berry,2015-03-08 As an increasing number of large corporations branch out into many fields of industry public concern over the lateral extension of their power is aroused Arguing that entry by large firms into concentrated industries may instead stimulate competition Charles H Berry analyzes the effect that such diversification has on corporate growth and on the structure and functioning of industrial markets To identify a relationship between the growth of large corporations and the pattern of their diversifying activities Professor Berry examines 460 of the largest U S industrial corporations In tracing the effects of their entry into some 200 manufacturing industries he develops new and striking evidence of the protected position of leading firms in concentrated industries a position that can be effectively undermined by the diversification of more powerful corporations into these industries Originally published in 1975 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Accounting and Finance** E. J. McLaney,Peter Atrill,2020
