IBM z13s Technical Guide Octavian Lascu, Barbara Sannerud, Cecilia A. De Leon, Edzard Hoogerbrug, Ewerson Palacio, Franco Pinto, Jin J. Yang, John P. Troy, Martin Soellig, IBM Redbooks, 2016-11-10 Digital business has been driving the transformation of underlying information technology IT infrastructure to be more efficient secure adaptive and integrated IT must be able to handle the explosive growth of mobile clients and employees It also must be able to process enormous amounts of data to provide deep and real time insights to help achieve the greatest business impact This IBM Redbooks publication addresses the new IBM z Systems™ single frame the IBM z13s server IBM z Systems servers are the trusted enterprise platform for integrating data transactions and insight

A data centric infrastructure must always be available with a 99.999% or better availability, have flawless data integrity and be secured from misuse. It needs to be an integrated infrastructure that can support new applications. It also needs to have integrated capabilities that can provide new mobile capabilities with real time analytics delivered by a secure cloud infrastructure. IBM z13s servers are designed with improved scalability, performance, security, resiliency, availability and virtualization. The superscalar design allows z13s servers to deliver a record level of capacity over the prior single frame z Systems server. In its maximum configuration, the z13s server is powered by up to 20 client characterizable microprocessors, cores running at 4.3 GHz. This configuration can run more than 18,000 millions of instructions per second MIPS and up to 4 TB of client memory. The IBM z13s Model N20 is estimated to provide up to 100% more total system capacity than the IBM zEnterprise BC12 Model H13. This book provides information about the IBM z13s server and its functions, features and associated software support. Greater detail is offered in areas relevant to technical planning. It is intended for systems engineers, consultants, planners and anyone who wants to understand the IBM z Systems™ functions and plan for their usage. It is not intended as an introduction to mainframes. Readers are expected to be generally familiar with existing IBM z Systems technology and terminology. *A Guide to Assessing Needs* Ryan Watkins, Maurya West Meiers, Yusra Visser, 2012-01-06. Making informed decisions is the essential beginning to any successful development project. Before the project even begins, you can use needs assessment approaches to guide your decisions. This book is filled with practical strategies that can help you define the desired results and select the most appropriate activities for achieving them.

Accounting Information Systems for Decision Making Daniela Mancini, Eddy H. J. Vaassen, Renata Paola Dameri, 2013-04-18. This book contains a collection of research papers on accounting information systems including their strategic role in decision processes within and between companies. An accounting system is a complex system composed of a mix of strictly interrelated elements such as data, information, human resources, IT tool, accounting models and procedures. Accounting information systems are often considered the instrument by default for accounting automation. This book aims to sketch a clear picture of the current state of AIS research including design, acceptance and reliance, value added, decision making, interorganizational links and process improvements. The contributions in this volume emphasize that AIS has grown into a powerful strategic tool. The book provides evidence for this observation by examining a wide range of current issues ranging from theory development in AIS to practical applications of accounting information systems. In particular, it focuses on themes of growing interest in the realm of XBRL and Financial Reporting, Management Information Systems, IT IS Audit and IT IS Compliance. The book will be of interest to financial and managerial accountants and IT IS practitioners including information systems managers and consultants. Survey of Accounting Carl S. Warren, 2001. This text is a contemporary introduction to accounting and accounting systems. It covers the essence of both financial and managerial accounting in a non-procedural, non-debit and credit manner.
