Editor & Publisher ,2007 **Race and the Greening of Atlanta** Christopher C. Sellers,2023-08-15 Race and the Greening of Atlanta turns an environmental lens on Atlanta s ascent to thriving capital of the Sunbelt over the twentieth century Uniquely wide ranging in scale from the city s variegated neighborhoods up to its place in regional and national political economies this book reinterprets the fall of Jim Crow as a democratization born of two metropolitan movements a well known one for civil rights and a lesser known one on behalf of the environment Arising out of Atlanta s Black and white middle classes respectively both movements owed much to New Deal capitalism s undermining of concentrated wealth and power if not racial segregation in the Jim Crow South Placing these two movements on the same historical page Christopher C Sellers spotlights those environmental inequities ideals and provocations that catalyzed their
