*Unjust Deeds* Jeffrey D. Gonda, 2015-08-26 In 1945 six African American families from St Louis Detroit and Washington D C began a desperate fight to keep their homes Each of them had purchased a property that prohibited the occupancy of African Americans and other minority groups through the use of legal instruments called racial restrictive covenants one of the most pervasive tools of residential segregation in the aftermath of World War II Over the next three years local activists and lawyers at the NAACP fought through the nation's courts to end the enforcement of these discriminatory contracts *Unjust Deeds* explores the origins and complex legacies of their dramatic campaign culminating in a landmark Supreme Court victory in *Shelley v Kraemer* 1948 Restoring this story to its proper place in the history of the black freedom struggle Jeffrey D Gonda's groundbreaking study provides a critical vantage point to the simultaneously personal local and national dimensions of legal activism in the twentieth century and offers a new understanding of the evolving legal fight against Jim Crow in neighborhoods and courtrooms across America

*The Campus Rape Frenzy* KC Johnson, Stuart Taylor, Jr., 2018-05-22 In recent years politicians led by President Obama and prominent senators and governors have teamed with extremists on campus to portray our nation's institutions of higher learning as awash in a violent crime wave and to suggest preposterously that university leaders professors and students are indifferent to female sexual assault victims in their midst Neither of these claims has any bearing to reality But they have achieved widespread acceptance thanks in part to misleading alarms from the Obama administration and biased media coverage led by *The New York Times* The frenzy about campus rape has helped stimulate and has been fanned by ideologically skewed campus sexual assault policies and lawless commands issued by federal bureaucrats to force the nation's all too compliant colleges and universities essentially to presume the guilt of accused students The result has been a widespread disregard of such bedrock American principles as the presumption of innocence and the need for fair play This

book uses hard facts to set the record straight It explores among other things nearly two dozen of the cases since 2010 in which students who in all likelihood would have or have subsequently been found not guilty in a court of law have in a lopsided process been hastily and carelessly branded as sex criminals and expelled or otherwise punished by their colleges often after being tarred and feathered by their fellow students And it shows why all students and eventually society as a whole are harmed when our nation s universities abandon pursuit of truth and seek instead to accommodate the passions of the mob As detailed in the new Epilogue some encouraging events have transpired since this book was first published in October 2016 A majority of the judicial rulings in dozens of lawsuits by male students claiming their schools treated them unfairly and discriminated against them based on their gender have rebuked the schools for their handling of these cases And Education Secretary Betsy DeVos called for fairness to accused students and accusers alike revoked most of the guilt presuming Obama era policies and began a protracted rule making process designed to compel procedural fairness and nondiscrimination

**Memorials to Shattered Myths** Harriet Senie,2016 Memorials to Shattered Myths Vietnam to 9 11 traces the evolution and consequences of a new hybrid paradigm which grants a heroic status to victims of national tragedies and by extension to their families thereby creating a class of privileged participants in the permanent memorial process Harriet F Senie suggests that instead the victims families be able to determine the nature of an interim memorial one that addresses their needs in the critical time between the murder of their loved ones and the completion of the permanent memorial She also observes that the memorials discussed herein are inadvertently based on strategies of diversion and denial that direct our attention away from actual events and reframe tragedy as secular or religious triumph In doing so they camouflage history and seen as an aggregate they define a nation of victims exactly the concept they and their accompanying celebratory narratives were apparently created to obscure
