In Pursuit of Civility Keith Thomas,2018-06-05 Keith Thomas's earlier studies in the ethnography of early modern England Religion and the Decline of Magic Man and the Natural World and The Ends of Life were all attempts to explore beliefs values and social practices in the centuries from 1500 to 1800 In Pursuit of Civility continues this quest by examining what English people thought it meant to be civilized and how that condition differed from being barbarous or savage Thomas shows that the upper ranks of society sought to distinguish themselves from their social inferiors by distinctive ways of moving speaking and comporting themselves and that the common people developed their own form of civility The belief of the English in their superior civility shaped their relations with the Welsh the Scots and the Irish and was fundamental to their dealings with the native peoples of North America India and Australia Yet not everyone shared this belief in the superiority of Western civilization the book sheds light on the origins of both anticolonialism and cultural relativism Thomas has written an accessible history based on wide reading abounding in fresh insights and illustrated by many striking quotations and anecdotes from contemporary sources

Hurricane Almanac Bryan Norcross,2007-05-29 Essential Information from CBS News Hurricane Analyst Bryan Norcross's pioneering and courageous TV coverage of Hurricane Andrew in 1992 helped millions of people in Florida cope with the killer storm This revised and updated version of last year's popular almanac adds detailed stories of the powerful hurricanes of the past that would be catastrophes if they happened today and explores how explosive coastal development during a time of relatively few hurricanes has set the stage for mega disasters If hurricanes make landfall today at the rate they did in much of the twentieth century how could we prevent the unimaginable destruction A new section will also help you better understand hurricane advisories Bryan Norcross's Hurricane Almanac is two books in one The first half is hurricane science history and perspectives on how we as a society deal with hurricanes The second half is a personal guide to Living Successfully in the Hurricane Zone In addition to reviewing and explaining the relatively mild 2006 hurricane season it looks forward to hurricane seasons to come highlights the fascinating history of hurricanes interacting with civilization and details our rapidly increasing ability but still with limitations to predict the severity and tracks of storms With preparation checklists and shopping lists an easy to understand guide to the technical information coming from the National Hurricane Center and critical practical information Hurricane Almanac is your essential guide to coping with Mother Nature's greatest storms A provocative chapter entitled How I'd Do It Better details Norcross's ideas for a better hurricane system Family Communications Evacuation Decision making Staying in a House Staying in an Apartment Shutters Hurricane proof Windows Backup Power Generators Computer Hurricane Plan Post storm Air Conditioning Candles Pool Preparation Pets Boats Cars and Businesses Insurance
