Soskin,2018-02-06 In Betty Reid Soskin s 96 years of living she has been a witness to a grand sweep of American history When she was born in 1921 the lynching of African Americans was a national epidemic blackface minstrel shows were the most popular American form of entertainment white women had only just won the right to vote and most African Americans in the Deep South could not vote at all From her great grandmother who had been enslaved until her mid 20s Betty heard stories of slavery and the times of terror and struggle for black folk that followed In her lifetime Betty has watched the nation begin to confront its race and gender biases when forced to come together in the World War II era seen our differences nearly break us apart again in the upheavals of the civil rights and Black Power eras and finally lived long enough to witness both the election of an African American president and the re emergence of a militant racist far right The child of proud Louisiana Creole parents who refused to bow down to Southern discrimination Betty was raised in the Bay Area black community before the great westward migration of World War II After working in the civilian home front effort in the war years she and her husband Mel Reid helped break down racial boundaries by moving into a previously all white community east of the Oakland hills where they raised four children while resisting the prejudices against the family that many of her neighbors held With Mel she opened up one of the first Bay Area record stores in Berkeley both owned by African Americans and dedicated to the distribution of African American music Her volunteer work in rehabilitating the community where the record shop began eventually led her to a paid position as a state legislative aide helping to plan the innovative Rosie the Riveter WWII Home Front National Historical Park in Richmond California then to a second career as the oldest park ranger in the history of the National Park Service In between she used her talents as a singer and songwriter to interpret and

chronicle the great American social upheavals that marked the 1960s In 2003 Betty displayed a new talent when she created the popular blog CBreaux Speaks sharing the sometimes fierce sometimes gently persuasive but always brightly honest story of her long journey through an American and African American life Blending together selections from many of Betty s hundreds of blog entries with interviews letters and speeches Sign My Name to Freedom invites you along on that journey through the words and thoughts of a national treasure who has never stopped looking at herself the nation or the world with fresh eyes

Poetic Song Verse Mike Mattison, Ernest Suarez, 2021-11-01 Poetic Song Verse Blues Based Popular Music and Poetry invokes and critiques the relationship between blues based popular music and poetry in the twentieth and twenty first centuries The volume is anchored in music from the 1960s when a concentration of artists transformed modes of popular music from entertainment to art that entertains Musician Mike Mattison and literary historian Ernest Suarez synthesize a wide range of writing about blues and rock biographies histories articles in popular magazines personal reminiscences and a selective smattering of academic studies to examine the development of a relatively new literary genre dubbed by the authors as poetic song verse They argue that poetic song verse was nurtured in the fifties and early sixties by the blues and in Beat coffee houses and matured in the mid to late sixties in the art of Bob Dylan the Beatles the Rolling Stones the Doors Jimi Hendrix Joni Mitchell Leonard Cohen Gil Scott Heron Van Morrison and others who used voice instrumentation arrangement and production to foreground semantically textured often allusive and evocative lyrics that resembled and engaged poetry Among the questions asked in Poetic Song Verse are What exactly is this new genre What were its origins And how has it developed How do we study and assess it To answer these questions Mattison and Suarez engage in an extended discussion of the roots of the relationship between blues based music and poetry and address how it developed into a distinct literary genre Unlocking the combination of richly textured lyrics wedded to recorded music reveals a dynamism at the core of poetic song verse that can often go unrealized in what often has been considered merely popular entertainment This volume balances historical details and analysis of particular songs with accessibility to create a lively intelligent and cohesive narrative that provides scholars teachers students music influencers and devoted fans with an overarching perspective on the poetic power and blues roots of this new literary genre

Cave Ecology Oana Teodora Moldovan, Lubomír Kováč, Stuart Halse, 2019-01-05 Cave organisms are the monsters of the underground world and studying them invariably raises interesting questions about the ways evolution has equipped them to survive in permanent darkness and low energy environments Undertaking ecological studies in caves and other subterranean habitats is not only challenging because they are difficult to access but also because the domain is so different from what we know from the surface with no plants at the base of food chains and with a nearly constant microclimate year round The research presented here answers key questions such as how a constant environment can produce the enormous biodiversity seen below ground what adaptations and peculiarities allow subterranean organisms to thrive and how they are affected by the constraints of their environment This book is divided into six main parts which address the habitats of cave animals their complex diversity the environmental factors that support that diversity individual case studies of cave ecosystems and of the conservation challenges they face all of which culminate in proposals for future research directions Given its breadth of coverage it offers an essential reference guide for graduate students and established researchers alike
