Provides a wide variety of educational recommendations and evidence based strategies **Creating Loving Attachments**

Kim S. Golding, Daniel A. Hughes, 2012 Troubled children need special parenting to build attachments and heal from trauma This book provides a parenting model that parents and carers can follow to incorporate love play acceptance curiosity and empathy into their parenting These elements are vital to a child's development and will help children to feel confident secure and happy Hijacking History Kathleen Wellman, 2021-08-18 The teaching of history has long been the subject of partisan warfare Religion often plays a prominent role in these debates as secular progressives and conservative Christians disagree over which historical figures are worthy of study how or whether certain events should be portrayed and ultimately how tax dollars should be spent But what about students who are educated outside the public schools either in religious schools or at home How are they learning history and what effect does that have on our democracy Hijacking History analyzes the high school world history textbooks produced by the three most influential publishers of Christian educational materials In these books the historian informed by his faith tells the allegedly unbiased story of God's actions as interpreted through the Bible History becomes a weapon to judge and condemn civilizations that do not accept the true God or adopt biblical positions In their treatment of the modern world these texts identify ungodly ideas to be vanquished evolution humanism biblical modernism socialism and climate science among them The judgments found in these textbooks Kathleen Wellman shows are rooted in the history of American evangelicals and fundamentalists and the battles they fought against the tide of secularism In assuming that God sanctions fundamentalist positions on social political and economic issues students are led to believe that the ultimate mission of America is to succeed as a nation that advances evangelical Christianity and capitalism throughout the world The Christianity presented in these textbooks is proselytizing intolerant of other religions and non evangelical Christians and unquestionably anchored to the political right As Hijacking History argues the ideas these textbooks promote have significant implications for contemporary debates about religion politics and education and pose a

direct challenge to the values of a pluralistic democracy **The Christian Educator's Handbook on Teaching** Kenneth O. Gangel, Howard G. Hendricks, 1998-02-01 A comprehensive resource on the distinctiveness of true Christian teaching
