**The Dawn of Abhidharma** ,2014 This book is a companion to Bhikkhu An layo's previous study of the Genesis of the Bodhisattva ideal In the present book he turns to another important aspect in the development of Buddhist thought the beginnings of the Abhidharma An layo shows that the two main modes generally held in academic circles to explain the arising of the Abhidharma the use of lists m t k and the question and answer format are formal elements that in themselves are not characteristic of Abhidharma thought Going beyond the notion that the coming into being of the Abhidharma can be located in such formal aspects he shows how the attempt to provide a comprehensive map of the teachings gradually led to the arising of new terminology and new ideas He identifies the notion of the supramundane path as an instance where fully fledged Abhidharma thought manifests in the discourses An layo concludes that what characterizes the Abhidharma is not the mere use of dry lists and summaries but rather a mode of thought that has gone further abhi than the Dharma taught in the early discourses in general
