BACK COVER

Addiction Is a Choice Jeffrey A. Schaler, 2011-09-30 Politicians and the media tell us that people who take drugs including alcohol or nicotine cannot help themselves They are supposedly victims of the disease of addiciton and they need treatment The same goes for sex addicts shopping addicts food addicts gambling addicts or even addicts to abusive relationships This theory which grew out of the Temperance movement and was developed and disseminated by the religious cult known as Alcoholics Anonymous has not been confirmed by any factual research Numerous scientific studies show that addicts are in control of their behavior Contrary to the shrill mindless propaganda of the war on drugs very few of the people who use alcohol marijuana heroin or cocaine will ever become addicted and of those who do become heavy drug users most will matrue out of it in time without treatment Research indicates that treatment is completely ineffective an absolute waste of time and money Instead of looking at drub addiction as a disease Dr Schaler proposes that we view it as willful commitment or dedication akin to joining a religion or pursuing a romantic involvement While heavy consumption of drugs is often foolish and self destructive it is a matter of personal choice

Addiction Gene M. Heyman, 2010-10-15 In a book sure to inspire controversy Gene Heyman argues that conventional wisdom about addiction that it is a disease a compulsion beyond conscious control is wrong

Drawing on psychiatric epidemiology addicts autobiographies treatment studies and advances in behavioral economics Heyman makes a powerful case that addiction is voluntary He shows that drug use like all choices is influenced by preferences and goals But just as there are successful dieters there are successful ex addicts In fact addiction is the psychiatric disorder with the highest rate of recovery But what ends an addiction At the heart of Heyman s analysis is a startling view of choice and motivation that applies to all choices not just the choice to use drugs The conditions that promote quitting a drug addiction include new information cultural values and of course the costs and benefits of further drug use Most of us avoid becoming drug dependent not because we are especially rational but because we loathe the idea of being an addict Heyman s analysis of well established but frequently ignored research leads to unexpected insights into how we make choices from obesity to McMansionization all rooted in our deep seated tendency to consume too much of whatever we like best As wealth increases and technology advances the dilemma posed by addictive drugs spreads to new products However this remarkable and radical book points to a solution If drug addicts typically beat addiction then non addicts can learn to control their natural tendency to take too much
