W. McGarvey,Philip Y. Pendleton,2010-03 The classic Harmony of the Gospels by J W McGarvey and Philip Y Pendleton with interspersed comments Attractively re typeset this enduring work is a valuable resource to modern Bible students In most commentaries a fifth or sixth of the space is taken up in drawing distinctions between the texts of the four Gospels while in this work these distinctions are placed before the reader s eye where he can see them for himself at a glance Moreover in other commentaries which give the text another sixth or seventh of the work is taken up in reprinting in the notes that portion of the text concerning which the commentator wishes to speak Our interjected method avoids all this needless repetition and makes it possible for us to present the comment with the least preliminary verbiage or introductory setting Time is also saved because the reader does not have to look back and forth from

the text at the top to the comment at the bottom of the page Again other commentaries lose a large amount of space by using the King James text Those which preceded the revision waste space correcting the translation and modernizing its English those published since the revision suffer a similar waste by drawing endless comparisons between the two texts By choosing the American revision as the basis for our work we have a text which needs but little explanation or apology and we are thereby enabled to employ the reader s time and strength to his best advantage Excerpted from the Introduction
